We could add the following:

On June 4, 2012, we proposed to partially approve and partially disapprove Wyoming's 309(g)

SIP. We received comments that the costs we relied on in our reasonable progress and BART determinations from the State were not correct. Based on these comments, EPA conducted new cost and visibility improvement modeling for the reasonable progress and BART electric generating units. Based on this new information, we are again proposing to partially approve and partially disapprove Wyoming's SIP.

We should probably add something to the comm. strat under the background section.

This doesn't say anywhere that the decision is a reproposal—is that on purpose?

Draft desk statement and background document for use with external comm. and media inquires.
This is based on similar edits made to draft CS and shared below by Carl.

There are a lot of messages in here, I tried to separated top line from background info.

I will share with Andrea Drinkard and others in OEAAEE late this pm, so any comments would be appreciated.

Thanks in advance...

Rich
